

Introducing the Dental Team COVID-19 Webinar Series

The COVID-19 Dental Task Force has been fielding questions from dentists on how to best communicate the ever-changing nature of this pandemic with their teams. In order to support you and your team, we are establishing a webinar series solely focused on what the COVID-19 pandemic means for your team as individuals. The focus of this webinar series is to help your dental team with insight and understanding of what all these changes mean and how it impacts them personally.
